

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interviews with Anita Terpstra on 6/7/2011 and 6/15/2011.

The application has been amended as follows:

In claim 1, step '(e)' insert --, wherein the assay in the second assay system is selected from a nuclear beta catenin measurement assay and a beta catenin transcriptional reporter assay immediately after "PRKC-ι".

In claims 4 and 7 insert --first-- immediately before "assay system".

Cancel claims 6, 13-15, and 20-25.

Election/Restriction

Claims 1-3, and 8-11 are allowable. The restriction requirement for an election of species, as set forth in the Office action mailed on 11/26/2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 4, 5, and 7, directed to species of candidate beta catenin modulating agents and assay systems are no longer

withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 13-15 and 20-25 directed to inventions non-elected without traverse. Accordingly, claims 13-15 and 20-25 have been cancelled.

Conclusion

No claim is allowed.
